POST NOTES is a publication of the Rock Island Post of the Society of American Military Engineers.  
 Editor: Scotty Bullock  
 US Army Engineer District, Rock Island  
 Rock Island, IL 61204  
 Telephone: (309) 794-5579

**AUGUST MEETING:** Major Ecosystem Restoration Programs - What are the Lessons?

From experiences inside government and from the private sector, the August SAME presentation will highlight many of the important elements to planning, programming and delivering major ecosystems restoration programs. Peter T. Madsen from CH2M HILL and formerly a Brigadier General from the US Army Corps of Engineers will discuss the lessons from ecosystem restoration programs and projects drawing from experience with restoration programs in coastal Louisiana, the Everglades, the Salt River in Phoenix, the Trinity River in Texas and CALFED in California.

Peter T. Madsen, P.E., Brigadier General, US Army Retired, is a Vice President for CH2M HILL. Mr. Madsen leads the ecosystems market segment in the Environmental Services Business Group of CH2M HILL, and serves as a team member in many major ecosystem restoration and water resource projects. Prior to joining CH2M HILL, Mr. Madsen served 28 years in the United States Army and retired at the rank of Brigadier General. Among his many assignments in the Army, he served as the Commanding General for both the South Atlantic and South Pacific Divisions of the Corps of Engineers, as the District Commander for the Fort Worth District of the Corps, and twice as the Executive Officer to the Chief of Engineers.

Peter is a graduate of the United States Military Academy at West Point, NY. He also holds a Master of Science degree in Civil Engineering from Georgia Tech and a Masters in Military Strategy from the National Defense University. He is a Fellow in the Society of American Military Engineers and is a professional engineer from the state of Virginia.

\*\*\*\*\*

**MEETING DATE:** Thursday, August 9, 2007

**LOCATION:** The Quad Cities Botanical Center  
 2525 4<sup>th</sup> Ave  
 Rock Island, IL 61201

**AGENDA:** 11:00 Board Meeting  
 11:30 am Social Hour  
 12:00 pm Lunch and Program

**COST:** \$10/person  
**MENU:** Roast Breast of Turkey  
 Glazed Baby Carrots  
 Whipped Potatoes

Assorted Salads, Dinner Rolls, and Luncheon Beverage  
**RESERVATIONS:** Contact Scott Bullock at [scott.a.bullock@usace.army.mil](mailto:scott.a.bullock@usace.army.mil) or 309.794.5579. Cost is \$10 and is payable at the door. Please sign up by COB Tuesday, August 7.

**BUSINESS BRIEF:** Perry Hubert, USACE - Construction Management Association of America

## **June Meeting Summary – BIM\CAVE® for Lock Design**

Adam Ziegler of the Rock Island District presented the BIM\CAVE® in the design applications associated with the UMR Lock 22 lock improvements. Also present to discuss the BIM\CAVE® were Noel Henneman from Stanley Consultants and Joe Kleiss from ARDEC. Mr. Ziegler is a 2002 University of Illinois Civil Engineering graduate. Adam has extensive experience working on the new 1,200-foot lock being considered at UMR Lock 22 near Saverton, Missouri. He is also the District's BIM manager and was instrumental in spearheading the District's efforts to utilize the CAVE® technology. The CAVE® is an advanced visualization solution that combines high-resolution stereoscopic projection technology and BIM derived 3-D computer graphics to create the illusion of a complete sense of presence in a virtual environment.

## **Sustaining Member Companies**

Heather Cross is organizing the student chapter meeting sponsorships for the 2007/2008 school year starting in August. Student chapter meeting sponsorships are \$100 and cover the cost of pizza at the monthly student meeting; the sustaining member sponsor is invited to present a business brief at the start of the meeting. There are slots open, please contact Heather Cross at [crossheather@stanleygroup.com](mailto:crossheather@stanleygroup.com) for more information.

## **Sustaining Member Briefings for 2007**

If your company is interested in signing up for a sustaining member briefing for 2007, please contact the Post Executive Secretary, Dean Cerny at 563-386-0572 or by email at [Dean.R.Cerny@USACE.army.mil](mailto:Dean.R.Cerny@USACE.army.mil). Sustaining member briefings are presentations held at regular luncheon meetings, usually scheduled before lunch that last 10 minutes. The presentations are a good opportunity for sustaining member firms to let the membership know what your company does and what type of projects you have accomplished. Sustaining Member Briefings are available for the December 13 meeting.

## **SAME 2008 National Conference Update**

Sustaining Member firms in the Minneapolis-Saint Paul Post and the Rock Island Post can now make reservations for Exhibit Booths. Registration flyers are available for downloading at the 2008 Conference Website: [http://www.same-2008.org/Exhibitor\\_Sponsor\\_Info.htm](http://www.same-2008.org/Exhibitor_Sponsor_Info.htm)

Members of the Sustainer Committee and the 2008 Planning Committee sold about 200 exhibitor booths and several event sponsorships for the 2008 conference at the 2007 conference in Philadelphia, this past May 1-4. If you want to get a booth or sponsorship while you still have choices, please follow the link above, or contact Heather Cross at [CrossHeather@stanleygroup.com](mailto:CrossHeather@stanleygroup.com).

Volunteers will be needed to help execute the 2008 conference. Please look ahead and prepare to help pull off this event. Post members who are willing to help, please send your contact information to Chuck Spitzack at [charles.p.spitzack@mvr02.usace.army.mil](mailto:charles.p.spitzack@mvr02.usace.army.mil). Also, tell Chuck if you have a particular type of activity for which you want to volunteer.

## **Xstream Cleanup 2007**

Xstream Cleanup, presented by Riverboat Development Authority, is set for 18 August 2007 at Sunset Marina, Rock Island, IL. This event is in collaboration with nationally known, Quad City native Chad Pregracke and his Living Lands & Waters team. Volunteers can choose to participate in either a light-duty or heavy-duty cleanup. Volunteers receive a free t-shirt and a light breakfast. They are invited to attend the after-event party Saturday evening at 6 p.m. at the Bier Stube, in Moline. Volunteers will also receive tickets to a Swing game to be held on August 25<sup>th</sup>, 2007. This event will mark the fourth annual Xstream Cleanup. General information may be found at <http://www.xstreamcleanup.org/> or, detailed information may be found in the flyer below.

## **SAME 11<sup>th</sup> Annual Scholarship Golf Outing**

Registration forms are currently being accepted for the 11th Annual Scholarship Golf Outing, which will be held on September 14, 2007 at the Geneva Country Club in Muscatine, Iowa. This is a great fundraising opportunity to finance the scholarships that the Rock Island Post gives each year to 10 deserving high school seniors. Cost for the event is \$65 for private sector and \$45 for public sector and full-time students, which includes greens fees, a cart, lunch, beverages, and a good chance at winning prizes. There are numerous sponsorship opportunities available, which are outlined in the attached flyer. Registration for the event can be completed by filling out the application located at the end of the post notes. It should be returned to Heather Cross no later than September 1. For additional information, contact Heather Cross at [crossheather@stanleygroup.com](mailto:crossheather@stanleygroup.com).

## **Mentor Program Midseason Rally**

On Monday, July 23<sup>rd</sup> the Rock Island Post Mentor Program held a midseason rally at John O'Donnell Stadium to watch the Quad City Swing take on the Lansing Lugnuts. As luck would have it, the Army Community Service in conjunction with the Quad Cities Homebuilders Association and Countrywide Home Loans provided free tickets to Active Military, National Guard, Reserves, Retired Military and Civilian Arsenal Employees to include their immediate family. Therefore, everyone in the SAME mentoring program received free tickets including their immediate family!

Barring hectic summer schedules and injuries (Mentor Lynn Pruitt broke his ankle), 9 of the 16 members were in attendance. Those of you who could not attend and enjoy a free game, low humidity, clear skies, 80 degree weather, ballpark franks and cold tasty beverages, below is an excellent excerpt from Quad City Times sports writer Steve Batterson summarizing the "marathon":

*"The Midwest League marathon at John O'Donnell Stadium ended at around 12:40 a.m. this morning. Raul Barron's solo home run with two outs in the top of the 16th inning allowed Lansing to claim an 11-10 victory over the Swing of the Quad-Cities. Everything came in bunches Monday night at John O'Donnell Stadium. Homers, errors, walks — even the crowd. A crowd of 5,355 was in the stands for the innocent beginning, but fewer than 100 remained for the finish five hours, 31 minutes later in a game which was extended when both teams took advantage of errors to score three runs apiece in the 14th inning..."*

Dominic Kempson, Dudley Hanson, Scott Bullock and Matt Wilber enjoying a cold beverage while watching the Quad City Swing.

The next group mentor program meeting will be the end of year formal dinner and graduation ceremony. More to follow...

## Certified Construction Manager (CCM)

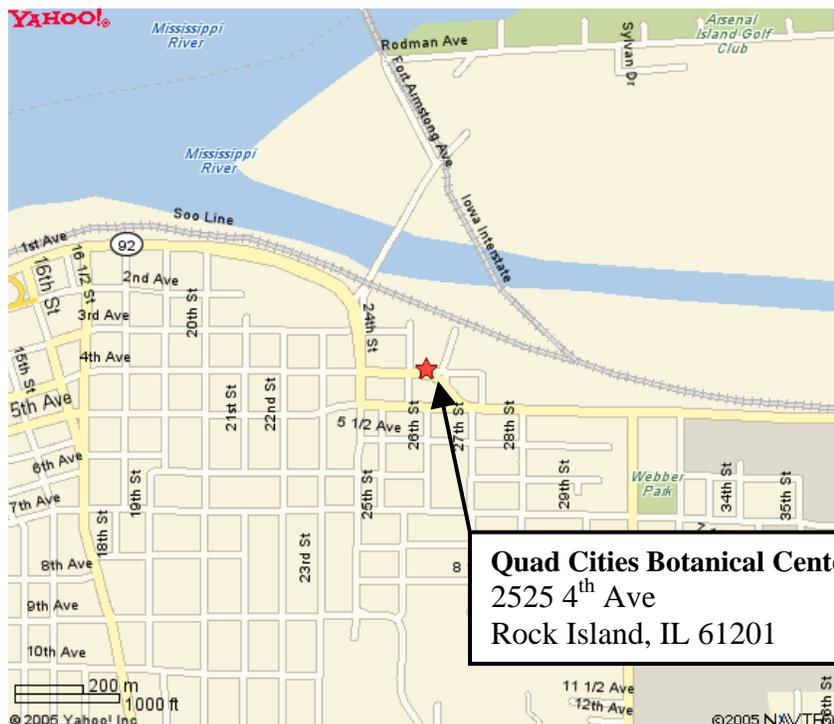

Interested in Becoming a Certified Construction Manager (CCM)? The "CM Certification" brochure from the Construction Manager Certification Institute (CMCI) is included as a pdf file with this month's newsletter to provide you with information on this opportunity. Perry Hubert, P.E., Chief of the Construction Branch for the Rock Island District Corps of Engineers, has been partnering with the Chicago Chapter of the Construction Management Association of America ([www.cmaanet.org](http://www.cmaanet.org)) and will make a brief presentation at the August 9th meeting. Please pass this info on to others in your organization that may be interested. Perry can provide you with more info and answer your questions. Feel free to contact him at 309-794-5480 or [perry.a.hubert@usace.army.mil](mailto:perry.a.hubert@usace.army.mil).

## UPCOMING SAME EVENTS:

To add events to the calendar, email Dean Cerny at [Dean.R.Cerny@USACE.army.mil](mailto:Dean.R.Cerny@USACE.army.mil)

# Xstream Cleanup: 8:30 to noon, Saturday 18 August 2007 Sunset Park, Rock Island

## About the get together:

We'll be meeting by the Volleyball courts in Sunset Park beside Sunset Marina.

## Once you're there:

We'll have you sign in (to track the number of volunteers), sign a waiver that you won't hold anyone other than yourself responsible for injury, have some brief instructions, eat a breakfast bar or two, pass out tee-shirts, and other items pertinent for the day. More details will be announced as they become available.

Volleyball courts.

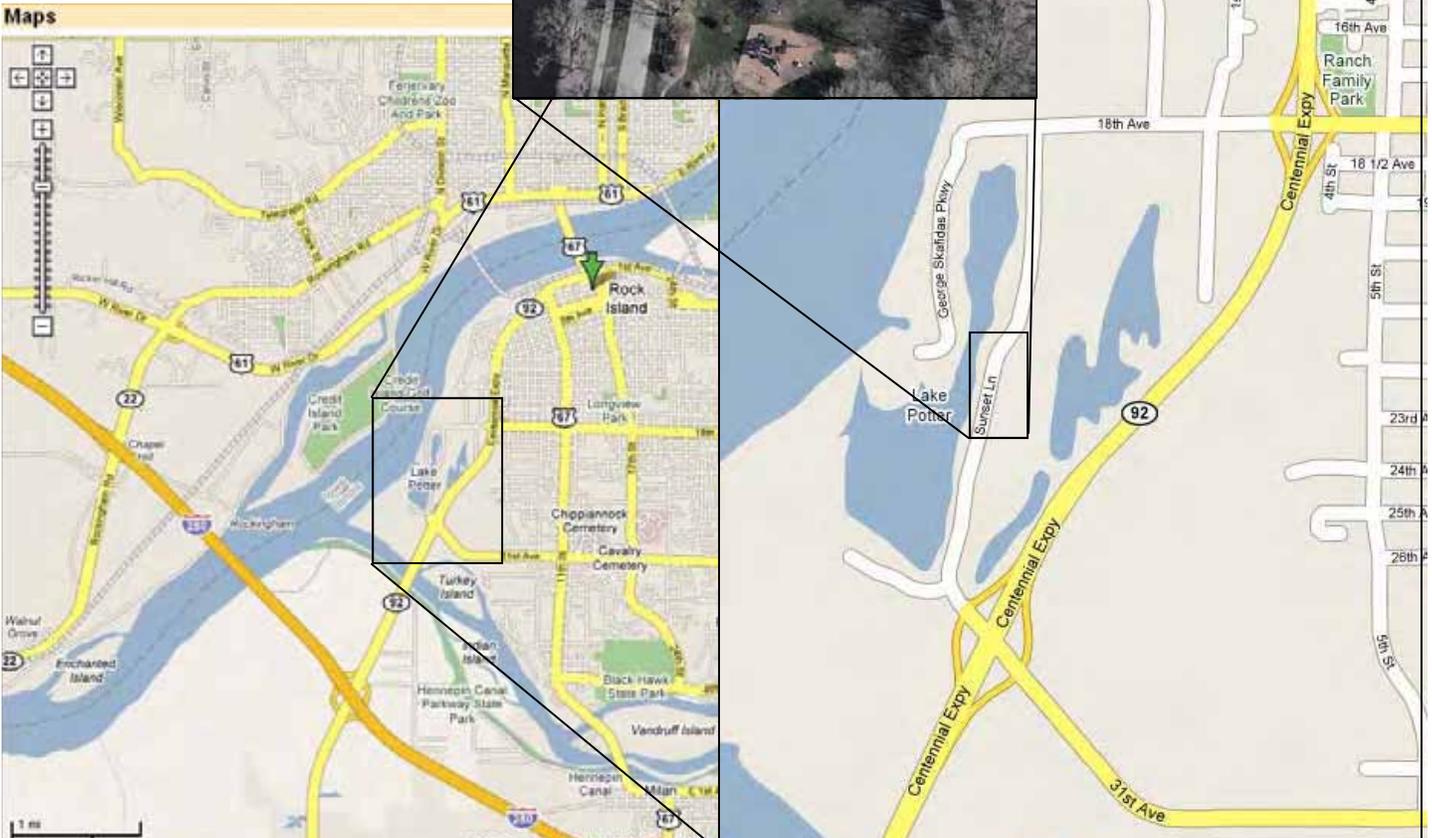

## Side Notes:

Things provided:

- Gloves (three sizes)
- Garbage bags
- Bottled water (chilled)

If someone could, please bring (we don't all need these, but having a couple on hand would be beneficial)

- A pairs of waders
- A shovel.

The Construction Manager  
Certification Institute

# *CM Certification*

- Wear the symbol of leadership and accomplishment
- Be recognized as a professional
- Join a distinguished group of professionals

**CMCI**

# Construction manager certification the future competitiveness and growth

The CCM designation is the means by which the profession:

- Defines its own content, standards of practice, and value.
- Identifies those best qualified to practice it.
- Offers an assurance of quality to those who employ its members.

The CM profession, and the construction industry in general, have clearly recognized the importance of this professional distinction, and its use is expanding dramatically every year. As recently as 1999, there were fewer than 100 Certified Construction Managers (CCMs).

In 2006, the number was more than 800 certified professionals. The ranks of America's CCMs have been growing by anywhere from 20 to 60 percent each year!

This enthusiastic support, across all market segments and specialties, demonstrates that:

- The construction industry sees the value of a formal credentialing program to identify qualified construction managers
- The CCM program administered by the Construction Manager Certification Institute (CMCI) meets that need.

## ANSI Accredited

The Construction Manager Certification Program is the first industry professional certification program to achieve ANSI/ISO/IEC 17024 Personnel Certification Accreditation by the American National Standards Institute (ANSI).

ANSI accreditation indicates that the program process and procedures adhere to an international standard of excellence that is mobile and in the interest of public welfare.

ANSI's Personnel Certification Accreditation Program has been adopted as an American National Standard that gives assurance of the legitimacy of these accredited certification programs to state and federal organizations.

For industry professionals pursuing the credential, this milestone recognizes the CCM as a valid and meaningful designation.

**CMCI is** an independent administrative body of the Construction Management Association of America, that confers the Certified Construction Manager (CCM) designation. CCMs are professionals who have voluntarily met the prescribed criteria of the CCM program and who have a demonstrated capability and understanding of the CM Body of Knowledge.

## Value of CM Certification to:

### Individuals

- Achieving the CCM credential means recognition of your skills and knowledge, resulting in increased professional stature.
- The CCM is a major benefit in marketing yourself to potential employers, as well as in pursuing advancement within your current organization.
- CCM allows quicker entry into new job assignments and responsibilities, and enhances your value to both your organization and its clients.

### CM Organizations

- The certification process provides an independent assessment of employee skills and knowledge based on national standards. It can guide your organization's training programs and identify the content required in your training.
- Because nationally certified people have highly "portable" credentials, CCM enhances your firm's ability to do business across state lines.
- Your marketing efforts will also benefit when you can point to CCMs on staff, since many owners give formal preference to CCMs in their bidder evaluations and the CCM is a recognized indicator of professional accomplishment.

### Construction Owners

- Owner practitioners today are challenged to handle increasingly complex projects under more and more time pressure, often with shrinking resources.
- The CCM credential is one way owners can identify potential service providers who have the knowledge and skill to help meet these challenges. Seeking out and working with CCMs is a reliable route to smooth, successful project and program management.

# is a vital key to th of our profession.

## The CCM Qualification Process

There are four phases in the certification process:

1. Determine if you are eligible
2. Complete the application
3. Be advanced to candidacy by the Board of Governors
4. Pass the exam.

General information about the process is outlined below.

### 1. Determining Your Eligibility

To become a Certified Construction Manager (CCM), you must have a requisite amount of experience and/or education. The eligibility requirements are:

- 48 months responsible in charge experience as a CM/PM in the qualifying areas as defined by the Qualification Matrix (right).

Plus one of the following:

- An accredited undergraduate (4-year BA/BS level) or graduate degree in construction management, architecture, engineering or construction science.
- A 2-year undergraduate accredited degree (AA/AS level) or certificate in

construction management, architecture, engineering or construction science AND 4 years experience in general design/construction.

- No degree/certificate in construction management, architecture, engineering or construction science AND 8 years experience in general design/construction.

### 2. Application

For this part of the process, you need to complete the application including documenting your project experience and providing your reference contacts.

Once your application is complete (all information and references received), it is forwarded to the Certification Board of Governors for review and evaluation.

The Board will make its recommendation to either advance to candidacy or deny candidacy.

### 3. Advancement To Candidacy

If your completed application is approved by the CMCI Board of Governors, you will be advanced to candidacy and can sit for the CCM exam.

### 4. Exam

For this part of the process, you need to prepare for and take the exam.

- Exam sites are held quarterly and at CMAA's National and Spring Conferences. Please check the CMCI website frequently as dates and locations are added.
- The exam is an all day closed book exam.
- Upon passing the exam, you become CM certified.

## QUALIFICATIONS MATRIX

This matrix represents the functions/roles of a Construction Manager during project phases as defined by CMAA in its publication CM Standards of Practice. The boxed areas represent the MINIMUM qualifying experience for the 48-month CM experience. This is cumulative experience; you do not need 48 months in each area. In order to enroll in the program, you MUST have experience in the boxed areas. If you do not have the requisite experience, please do not submit an application at this time.

There are 30 possible experience areas; for each function/role and phase, ask yourself the following question:

In your position as (title) on (name) project, did the decisions you make directly impact the successful completion of the project and were you directly in responsible charge of construction management services and for protecting the interests of the project/owner?

		PHASE				
		Pre-Design	Design	Procurement	Construction	Post-Construction
FUNCTION / ROLE	Project Management	[_____]	[_____]	_____	[_____]	_____
	Cost Management	_____	[_____]	[_____]	[_____]	_____
	Time Management	_____	[_____]	_____	[_____]	_____
	Quality Management	_____	[_____]	_____	[_____]	[_____]
	Contract Administration	_____	_____	[_____]	[_____]	[_____]
	Safety Management	_____	_____	_____	[_____]	_____

## CM Certification FAQs

### How long does the certification process take?

Most applicants are certified within 4–7 months of submitting their applications. The length of time it takes to become certified depends on how quickly you can submit a complete application; how quickly the references respond; and how quickly you can take and pass the CCM exam.

### How can I prepare for the exam? What should I study?

CMCI recommends CMAA publications in addition to those listed in the CM Core Competencies, located on the website. CMAA has a variety of resources that you'll find helpful.

### What is the Project Documentation Requirement?

You need to document 48 months of responsible-in-charge experience as a CM/PM. Only 48 months is required—more is not necessarily better.

### How are reference letters submitted?

There is a required form for the reference letter. Upon receiving an application, all references will be contacted by CMCI. Reference letters must be returned to CMCI in signed and sealed envelopes and must come directly from the reference.

### What does the exam test?

The exam tests general knowledge of construction management. Material is based on the Construction Manager Body of Knowledge and is taken from the following sources: Project experience, CM Standards of Practice, and the Capstone.

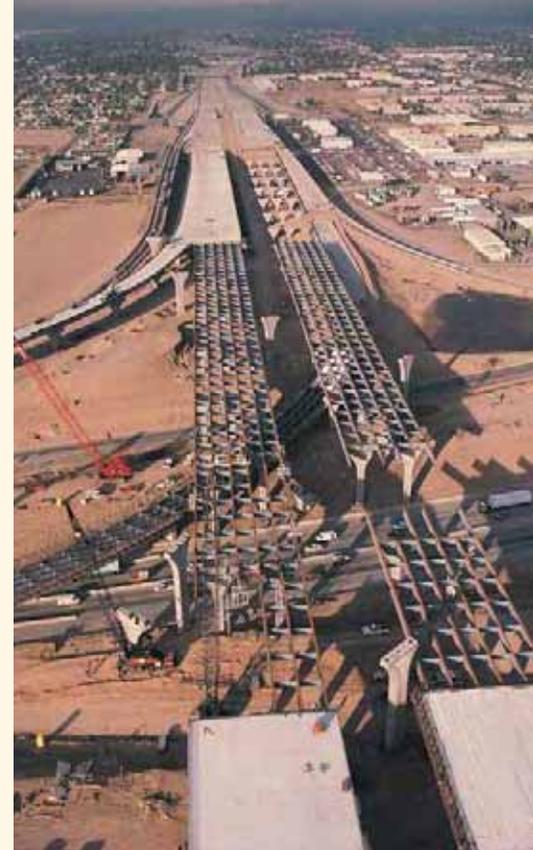

### What are the requirements for continued CM certification?

Certification is an on-going, lifelong commitment that actually begins with becoming certified. CCMs must obtain re-certification points to maintain the CCM designation. After an initial five-year period, CCMs are required to re-certify every three years by submitting points in three key areas: involvement/commitment to the profession, contribution to the profession, and professional development.

## Certification Program Fees

Application .....	\$275
Exam .....	\$275
Exam Retake Fee.....	\$100
CCM Annual Maintenance Fee ....	\$ 75

## Total CCMs By Year

## Testimonials

*"As the skill sets and body of knowledge of construction management evolve, the professional certification process helps keep construction management executives in a lifetime-learning mode. Having completed the process, I can highly recommend it—even to those of you who are reluctant, as I was, to commit the time and energy."*

— **Takis Salpeas, CCM,**  
Parsons

*"When I hire a general contractor, do I ask for a CCM? No. Why not? I see a CCM being more than just a person who can manage the construction phase. I want my CM to be a CCM because it assures me they can manage the entire process and they also know where I am coming from as an owner."*

— **Linda Phillips, CCM,**  
General Services Administration

*"The certification process brings about an awareness of CM basics and clearly identifies them. Certification creates a broader perspective of CM applications in areas that may be missed by only following other practitioners. Certification helps CCMs to demonstrate a level of proficiency for professional practice."*

— **Rick Rye, CCM,**  
Fluor, Inc.

*"I know of at least one major building project that I received because I'm a certified CM. That's not why I chose to become certified, but it certainly helps my bottom line."*

— **Jeff Fry, CCM,**

**\$45/student**

**Hole sponsorships available**

#### **EVENT INCLUDES:**

**Green fees, golf cart, driving**  
**range, lunch, welcome packet**

The SAME 11th Annual Scholarship Fund Golf Outing.

This year the golf scholarship outing will be held on Friday, September 14th at Geneva Golf and Country Club in Muscatine, Iowa. Shotgun start at 8:30 AM, preferred ball format. The fee is just \$45 per person for public sector, and \$65 per person for private sector. That includes donuts and coffee, green fees, driving range, shared cart, welcome packet with two drink tickets, lunch, a good chance at prizes and a certain chance of having a great time.

Most importantly, the proceeds from this event will help aspiring young engineers to succeed!

Don't forget the many sponsorship options as well! Hole sponsors will be acknowledged in the golf outing pamphlet, have a sign with their name placed out on the course, and will be recognized at the follow-up luncheon and awards presentation.

You also have the option to make a direct cash donation or a prize donation, or sponsor a student for this event. Last year ALL of the students who participated were sponsored! Mention will be made for sponsorships at every level.

Students! Make sure you inquire about the FREE golf outing scholarships
